

Lab# 06: Report Malicious Artifacts

Objective: Learn to report malicious artifacts to CTI community portals.

1. AbuseIPDB

Report abusive IP addresses involved in hacking, phishing, or other malicious behaviours. Enter IP address and select a category to click and report that IP.

Step 1: Login to AbuseIPDB portal with free account to report a malicious IP address (like the source IP address of an attacker on <https://www.abuseipdb.com/report>

Step 2: Open the IP address list for Spam IP Addresses from Github https://github.com/duggytuxy/malicious_ip_addresses/blob/main/botnets_zombies_scanner_spam_ips.txt and copy an IP address to validate, chose options as required.

1.116.249.188

Categories (at least one is required)

☒ DNS Compromise ?	☒ DDoS Attack ?	☒ Email Spam ?	☒ Brute-Force ?
☒ DNS Poisoning ?	☒ Open Proxy ?	☒ Port Scan ?	☒ Bad Web Bot ?
☒ Fraud Orders ?	☒ Web Spam ?	☒ Spoofing ?	☒ Exploited Host ?
☒ Web App Attack ?	☒ FTP Brute-Force	☒ Fraud VoIP	☒ Hacking
☒ SSH ?	☒ Ping of Death ?	☒ Blog Spam ?	☒ SQL Injection ?
☒ IoT Targeted ?	☒ Phishing ?	☒ VPN IP ?	

Step 3: Report the IP as malicious. NOTE – do NOT report any valid IP address.

REPORT IP ADDRESS Please abide by our [reporting policy](#).

2. URLhaus

This is a project by abuse.ch that focuses on sharing malicious URLs used for malware distribution. You can submit suspicious URLs you encounter during threat hunting.

Step 1: Create a free account to report on <https://urlhaus.abuse.ch/browse/> and enter an IP or Domain to report.

URLhaus

by ABUSE|TH

Manual import

Bulk import

URL

http://example.tld/mal.exe

Tags

tag

☐ Anonymous report?

URL <http://1.116.249.188> successful added to URLhaus database

3. MISP (Malware Information Sharing Platform)

This is a free, open-source platform designed for sharing threat intelligence. It allows you to submit IOCs along with contextual information like the type of threat, affected systems, and mitigation techniques.

Step 1: MISP on Docker can be setup using <https://github.com/misp/misp-docker>

4. PhishTank

This is a community-driven platform for reporting and tracking phishing websites. It's a valuable resource for identifying phishing attempts and sharing them with the security community.

Step 1: Open <https://phishtank.org/> and submit a domain to validate if it is a phishing site or not.

Join the fight against phishing

Submit suspected phishes. **Track** the status of your submissions.
Verify other users' submissions. **Develop** software with our free API.

Found a phishing site? Get started now — see if it's in the Tank:

Is it a phish?

Step 2: Click a submission to study its technical details – why is it phishing site.

Submission #3650279 is currently ONLINE

Submitted Jul 11th 2024 7:01 PM by [IsmaelParkes](#) (Current time: Jul 11th 2024 7:15 PM UTC)

<https://caterpillarcatoofficial.com.br/>

[Sign in](#) or [Register](#) to verify this submission.

This submission needs more votes to be confirmed or denied.

[Screenshot of site](#) [View site in frame](#) [View technical details](#) [View site in new window](#)

No screenshot yet.

We have not yet successfully taken
a screenshot of the submitted website.

Step 3: Create your account to submit a phishing site.

5. BlockList.de

This volunteer-run service allows reporting various cyberattacks, including those identified through IOCs. They focus on informing relevant parties like service providers to act.

Step 1: Search for an IP using <https://www.blocklist.de/en/search.html> to validate it is malicious.

Search for IP or AS-numbers on blocklist.de

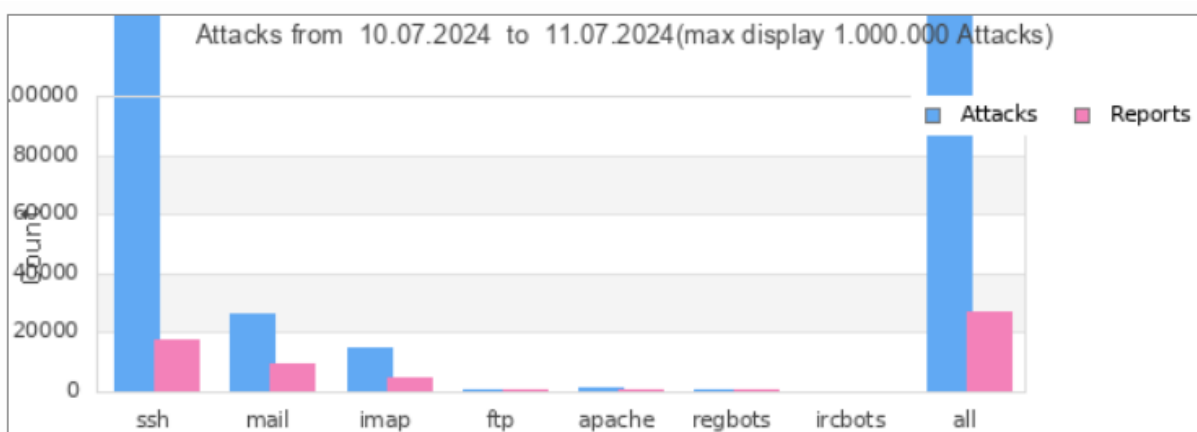

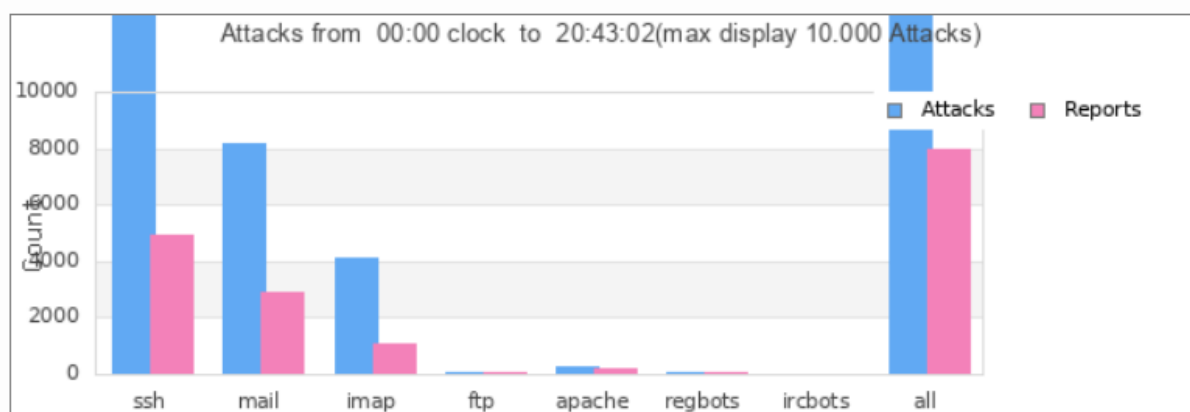

ads

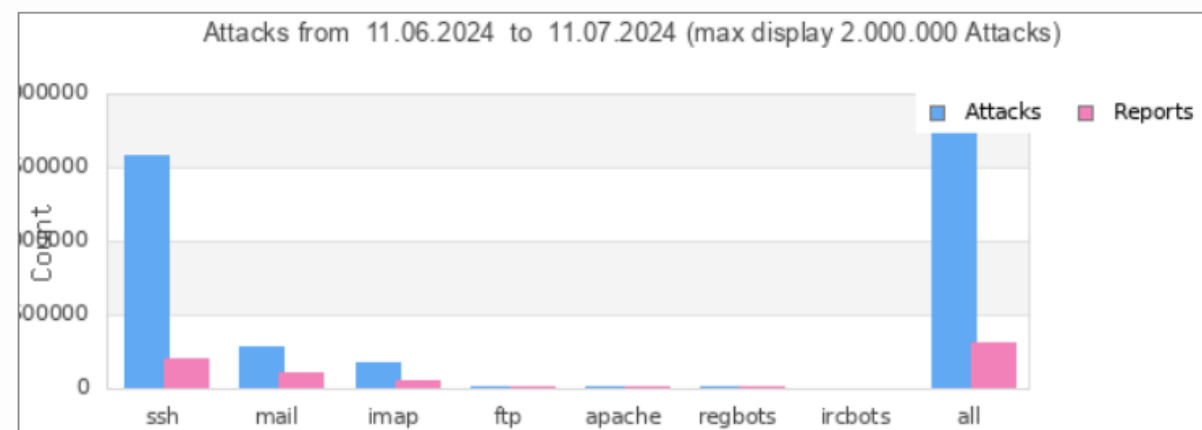

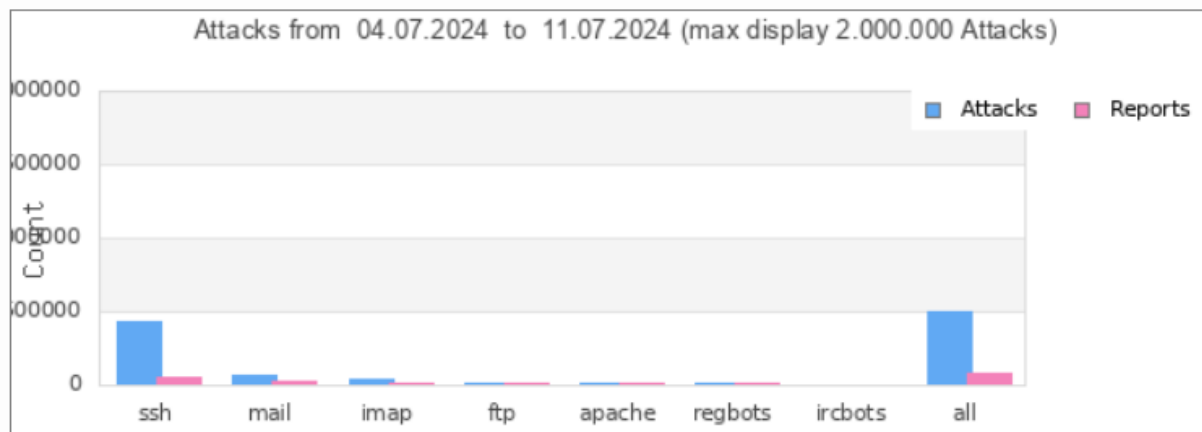

(% for Placeholder)

Search IP-Address:

Step 2: IoCs can also be obtained from Github link at <https://github.com/hslatman/awesome-threat-intelligence?tab=readme-ov-file#tools>

Step 3: Study the trend using Statistical Graph from <https://www.blocklist.de/en/statisticsgraph.html>

Step 4: Refer to the <https://www.blocklist.de/en/export.html> link to study the attacker IP addresses.

Lab activities:

- Perform the above-mentioned steps and present your work in WORD file with screenshots snipped with relevant details.
- Do NOT copy from others, else your submission will be graded ZERO.
